Asia's Largest Elevated Metro Depot Inaugurated in Mumbai for Line 2B

Published On: 18-11-2025

In November 2025, Mandale Depot for Mumbai Metro Line 2B, spread over 32 hectares, was inaugurated in Mumbai, Maharashtra, becoming Asia's largest and first elevated metro facility.

This 23.6 kilometer (km)-long elevated Metro Line 2B connects DN Nagar (Andheri West) to Mandale (in Mankhurd East) of Mumbai.

About Mandale Depot:

Developed by: This new state-of-the-art depot was developed by Mumbai Metropolitan Region

Development Authority (MMRDA).

Capacity: The Mandale Depot, a two-level structure, has the capacity to accommodate 72 rakes.

- The depot houses India's longest 965 meter (m)-long test track for advanced train trials, along with four Shunting Necks and one Elevated Neck to optimize train movement and reduce turnaround time.

Control Centre: The depot is anchored by a G+3 Depot Control Centre that functions as the brain of the system, designed to work around the clock and monitor train movement, maintenance schedules, and safety systems in real time.

Other Key Features: The new depot features a 175 kilolitre per Day (KLD) effluent and sewage treatment system for recycling water, over 100 kilometer (km) of underground utilities for smooth operations, and noise and dust suppression systems to reduce environmental impact.
