Global Biofuel Alliance

Published On: 12-02-2023

Why is in news? Global Biofuel Alliance: One of the priorities under India's G20 Presidency

Brazil, India, and the United States, as **leading biofuel producers and consumers**, will work together during the next few months towards the development of a Global Biofuels Alliance along with other interested countries.

This Alliance will be aimed at **facilitating cooperation and intensifying the use of sustainable biofuels**, including in the transportation sector.

It will place emphasis on strengthening markets, facilitating global biofuels trade, development of concrete policy lesson-sharing and provision of technical support for national biofuels programs worldwide.

It will also emphasize the already implemented best practices and success cases.

The Alliance shall work in collaboration with and complement the relevant existing regional and international agencies as well as initiatives in the **bioenergy, bio-economy, and energy transition fields** more broadly, including the **Clean Energy Ministerial Bio-future Platform, the Mission Innovation Bioenergy initiatives, and the Global Bioenergy Partnership (GBEP)**.

The Global Biofuel Alliance is one of the priorities under India's G20 Presidency and was announced by Union Ministry of Petroleum & Natural Gas and Housing & Urban Affairs **during India Energy Week 2023**.
