# Hindu Growth rate

**Published On: 07-12-2025**

Context: PM: 'Hindrate of growth' term maligned an entire Civilization

The term “Hindrate of growth” was coined by economist Raj Krishna in 1978 **to describe India's slow economic growth after independence**, mainly from the 1950s to the 1980s, when the country's GDP grew only about 3.5-4 per cent per year.
