# India and Finland reaffirm defence production ties and expand collaboration in mutual interest areas

Published On: 23-02-2026

India and Finland agreed to strengthen cooperation in defence production and technology.

The discussions were held in New Delhi.

Both sides decided to expand collaboration in areas of mutual interest.

## **Key Areas of Cooperation**

Defence manufacturing and production

Space technology

Quantum computing

Other niche and advanced technologies

## **Why It Is Important**

It supports India's goal of strengthening domestic defence production.

Cooperation in emerging technologies will help both countries innovate and grow.

It reflects expanding strategic and technological partnership between India and Finland.
