India and Liechtenstein Agree to Deepen Cooperation in Advanced Technologies

Published On: 23-02-2026

India and Liechtenstein agreed to strengthen cooperation in advanced technologies and innovation-driven sectors.

The decision was made during a meeting between Prime Minister Narendra Modi and Prince Alois, Hereditary Prince of the Principality of Liechtenstein in New Delhi on the sidelines of the India AI Impact Summit 2026.

Key Areas of Cooperation

Both countries agreed to work together in:

High-value manufacturing, boosting quality and advanced production.

Advanced technologies that drive innovation.

Innovation-driven sectors to support future growth and competitiveness.

Economic and Trade Context

The discussion came shortly after the India–TEPA Free Trade Agreement came into force in October 2025.

Both leaders expressed confidence that the TEPA will help expand economic engagement and attract investment.

It is expected to encourage large-scale future investments and cooperation.

Why It Matters

Kamaraj IAS Academy

Plot A P.127, AF block, 6 th street, 11th Main Rd, Shanthi Colony, Anna Nagar, Chennai, Tamil Nadu 600040
Phone: 044 4353 9988 / 98403 94477 / Whatsapp : 09710729833

The agreement shows that India is expanding its global partnerships in technology and innovation.

It aims to accelerate collaboration in areas that are key to future technologies and economic growth.

This move strengthens the friendly relations between India and Liechtenstein, which have existed since 1993.
