India Internet Governance Forum

Published On: 29-11-2025

Recently, the fifth edition of the India Internet Governance Forum (IIGF?2025) concluded with a clear vision for inclusion, stronger digital infrastructure and responsible AI.

About India Internet Governance Forum

It is the Indian chapter of the United Nations Internet Governance Forum (UN IGF) which was established in 2021.

It is a global multi-stakeholder platform that fosters dialogue on public policy issues related to the Internet.

It aims to maximize the opportunities of the Internet while addressing associated challenges and risks.

IIGF promotes collaborative discussions among representatives from government, civil society, industries, technical communities, think tanks, and industry associations.

It is guided by a 14-member multi-stakeholder committee, IIGF Known for its inclusive and collaborative approach.

Role of IIGF: It plays a vital role in shaping policies for an open, secure, and accessible Internet, addressing issues such as cybersecurity, digital inclusion, data privacy, and emerging technologies.

Theme of the fifth edition of IIGF: "Advancing Internet Governance for an Inclusive and Sustainable Viksit Bharat."

What is Internet Governance?

It is the process of developing norms and principles that impact the way the Internet is used and functions.

It includes solving technical issues, setting regulatory frameworks, and policymaking to respond to social, economic and security matters, as well as questions of trust, standard-setting, accountability and jurisdiction
