India–Seychelles Agreements Signed to Boost Cooperation in Health, Security, Digital Technology, and Economic Development

Published On: 11-02-2026

India and Seychelles signed several agreements and MoUs during the state visit of Seychelles President Patrick Herminie to New Delhi.

The leaders also adopted a Joint Vision for Sustainability, Economic Growth and Security (SESEL) to guide future cooperation.

Special Economic Package

India announced a \$175 million Special Economic Package to support Seychelles' development.

This package will help in social housing, e-mobility, vocational training, health, defence and maritime security.

Key Areas of Cooperation

Health and Public Services: Agreements were signed for health sector support and cooperation.

Digital and Technology: MoUs include digital transformation and technical collaborations.

Maritime and Security: Cooperation agreements cover maritime security, ocean science, and hydrography. India will support maritime surveillance and security to ensure a safe Indian Ocean region.

Training and Capacity Building: India will help train Seychelles civil servants and build skills.
