INS Anjadip: ASW Shallow Water Craft

Published On: 23-12-2025

Subject Reference: GS Paper III (Security & Indigenization of Technology)

- **The News (Dec 2023/2025):** The 'Anjadip' is the third of eight Anti-Submarine Warfare Shallow Water Crafts (ASW SWC) built by GRSE for the Indian Navy.
- **Apt Topic: "Littoral Warfare & Maritime Atmanirbharta"**
- **The Shallow Water Gap:** Large destroyers cannot operate effectively in shallow coastal waters. These crafts are designed to detect **silent diesel-electric submarines** and "midget" subs near our coast.
- **Indigenous Content:** With over **80% indigenous content**, it features water-jet propulsion, allowing for higher maneuverability and lower noise—critical for stealthy submarine hunting.
