Kerala's First Private Medical Museum Opens in Thiruvananthapuram

Published On: 28-05-2026

Kerala's first private medical museum, named the Museum of Medical Archives, has been inaugurated at Ulloor in Thiruvananthapuram. The museum is dedicated to preserving the history of medical science, anatomy education, and healthcare teaching materials. It is also being described as India's first privately owned museum exclusively focused on medical education and archives.

The museum showcases a wide collection of:

Anatomical models

Embryology charts

Rare medical teaching aids

Historical medical instruments

Biological education materials

Archival documents related to medical science.

The initiative was founded by A. Sivaraman, a former artist-modeler associated with medical education. Many of the exhibits were handcrafted and used for decades in medical teaching and anatomical training.

Importance of the Museum

Kamaraj IAS Academy

Plot A P.127, AF block, 6 th street, 11th Main Rd, Shanthi Colony, Anna Nagar, Chennai, Tamil Nadu 600040

Phone: **044 4353 9988 / 98403 94477 / Whatsapp : 09710729833**

The museum aims to:

Preserve India's medical education heritage

Promote awareness about the evolution of healthcare

Support learning for medical students and researchers

Encourage public understanding of anatomy and biological sciences.

It also serves as an educational and scientific tourism destination in Kerala, especially for students interested in medicine, biology, and healthcare history.
