Mephedrone

Published On: 10-12-2025

Context: The **Directorate of Revenue Intelligence (DRI)** recently dismantled a **Mephedrone manufacturing facility** in Maharashtra under **Operation Hinterland Brew**, highlighting India's vigilance against emerging drug threats.

About Mephedrone

Classification:

- o **New Psychoactive Substance (NPS)** – designed to mimic effects of established illicit drugs.

- o **Empathogen-stimulant drug** – accelerates communication between brain and body.

Effects:

- o Similar to **MDMA (ecstasy)** – induces euphoria, stimulation, and empathy.

- o Associated with **undesirable effects**: agitation, anxiety, hallucinations, and in severe cases, **fatal intoxications**.

Legal Status in India:

- o Governed under **Narcotic Drugs and Psychotropic Substances (NDPS) Act, 1985**.

- o Manufacture, possession, or distribution without authorization is a **criminal offence**.
