

# Sambhar Lake

Published On: 28-10-2024

## Why in news?

Over **40 migratory birds**, belonging to two to three different species, have been **found dead around Sambhar Lake in Jaipur** district recently, prompting concerns among the officials.

## About Sambhar Lake:

- It is the **country's largest inland saline water body**, which attracts thousands of migratory birds every year.
- The death of more than 20,000 birds due to avian botulism, which migrate annually to the lake had made international headlines in 2019.
- The lake receives water from six rivers: **Mantha, Rupangarh, Khari, Khandela, Medtha and Samod**.
- Sambhar has been designated as a **Ramsar site** (recognized wetland of international importance) because the wetland is a key wintering area for tens of thousands of **pink flamingos** and other birds that migrate from northern Asia and Siberia.

## Why there is need to conserve wetland?

NEED FOR CONSERVATION			PROHIBITED ACTIVITIES WITHIN WETLANDS	
WHAT IS WETLAND			<ul style="list-style-type: none"><li>➤ Any kind of encroachment</li><li>➤ setting up of any industry</li><li>➤ Expansion of existing industries</li><li>➤ Solid waste dumping</li><li>➤ Discharge of untreated wastes and effluents from industries, cities, towns, villages and other human settlements</li><li>➤ Poaching</li><li>➤ Any construction of a permanent nature except for boat jetties within <b>50 metres</b> from the mean high flood level observed in the past <b>10 years</b></li></ul>	
<ul style="list-style-type: none"><li>➤ Land area covered by water, either temporarily/seasonally or permanently (marsh, fen and peatland come under this category)</li><li>➤ It has characteristics of a distinct ecosystem</li></ul>				
WHY ARE THEY IMPORTANT				
<ul style="list-style-type: none"><li>➤ Play a key role in hydro-logical cycle and flood control, water supply, providing food, fibre and raw materials</li><li>➤ Wetlands support lakhs of migratory birds from colder regions of the world in summers, apart from mangroves that protect coastlines and filter pollutants</li></ul>				
WETLANDS IN NUMBERS				
It mapped <b>2,01,503</b> wetlands	They comprise around <b>4.63%</b> of the geographic area of India	No. of wetland sites in India under Ramsar Convention   <b>37</b>		
INDIA'S PROMINENT WETLANDS				
Chilika lake areas (Odisha)   Wular lake (J&K)   Renuka (Himachal Pradesh)   Sambhar lake (Rajasthan)   Deepor Beel (Assam)   East Kolkata wetlands (West Bengal)   Nal Sarovar (Gujarat)   Harike (Punjab)   Rudra Sagar (Tripura) and Bhoj wetland (Madhya Pradesh)
