Report reveals delayed wages are a key factor to mismatch between MGNREGS coverage, delivery

Published On: 19-05-2025

Context

- A review of the **Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS)** for the financial year 2024-25 reveals that while the coverage has increased, with an **8.6% rise in number of registered households** under the programme, the delivery of promised employment has gone down, with **person days having dropped by 7.1%**. This was revealed in a report released by LibTech India, a consortium of academics and activists on Monday.
- Person days under the MGNREGS is defined as the **total number of workdays by a person** registered under the scheme in a financial year.
- The LibTech study revealed that **only 7% of households got 100 days of work**. The MGNREG Act **promises guaranteed employment up to 100 days**
- Among the key factors leading to an overall employment drop are the **inadequate allocation of budget and extraordinary delay in wage payments** reported from across the country
